

TrendTalk: Challenges and Opportunities in the Rochester High-Tech Sector

The high-tech field is bustling in Rochester, including solar energy, battery technology, touch panel displays and biofuels. Join us for this RPCN TrendTalk panel discussion to hear from and interact with three of the leaders making things happen in this sector.

Our panelists:

Charles Provini, president and CEO of Natcore Technology, is basing cutting-edge research and development on solar technology at Eastman Business Park in Rochester.

Bill Pollock, CEO of Optimization and of Kingsbury Corporation, is putting Rochester at the center of advancements in touch panel technology.

Bob Kot, managing director of new ventures at High Tech Rochester, is leading HTR's efforts to accelerate the growth of local startup companies.

Future TrendTalk sessions will focus on the health care, nonprofit, religious and other sectors of the local economy.
